My Opinion of School

I love st Josephs park avenue it is a great school we get amazing, nice and friendly teachers and we do lots of fun activities and cool assignments to do and I like all the technology in the classroom. I really enjoy: maths, art, Science and HASS they're all fun and enjoyable. I like how on rainy days we get to go the place where we walk into school and at play inside on our chrome books. I hope other children send notes like this to the school.
